EDUCATION

M.Sc. in Artificial Intelligence

Technical University of Madrid

2020 – Present

Madrid, Spain

B.Sc. in Computer Science

Wroclaw University of Science & Technology

2018 – 2019

Wroclaw, Poland

- Erasmus exchange during the academic course 2018/2019.

B.Eng. in Computer Software Engineering

University of Oviedo

2016 – 2020

Oviedo, Spain

- Coursed 204 ECTS in English.
- Average grade: 8.33 (out of 10).

EXPERIENCE

Research Fellow

Biomedical Informatics Group, Technical University of Madrid

September 2020 – September 2020

- Medical data integration.
- Data quality.
- ETL.
- Reporting.

Undergraduate Research Fellow

UNIMODE Research Group, University of Oviedo

September 2019 – October 2019

Oviedo, Spain

Internship during my undergraduate degree.

The following tasks were performed in collaboration with two professor of the Computation and Artificial Intelligence department:

- Bibliography review.
- Analysis and optimization of algorithms.
- Development of algorithms.

The previous tasks were applied to a specific problem: aggregation of partially ordered sets. This work set a baseline for my Final Degree Project, obtaining later a grade of 10.

LIFE PHILOSOPHY

“ Always ready to learn new things. If I have a goal, I don’t stop until I get it.”

ABOUT ME

Software engineer graduate with a passion for technology and artificial intelligence especially machine and deep learning and its real-life applications such as natural language processing.

I am a passionate lover of sports, having played: football, basketball, volleyball, tennis, panel, fronton, badminton, snowboard... But, without any doubt, Judo is, and will always be, my real passion. Judo has been present in my life since I was 6 years old, and nowadays I have the black belt, 2° DAN. Thanks to this incredible sport I have learnt essential values such as respect, self control, perseverance and overcoming.

STRENGTHS

Motivator & Leader Curious
Hard-working Problem solving
Ability to work in team

Software Design & Development
Python Computer Vision
Information Retrieval NLP
Machine and Deep Learning

SCHOLARSHIPS

Erasmus+ Grant

University of Oviedo

📅 September 2018 – June 2019

📍 Oviedo, Spain

Excellent Academic Achievement Scholarship

University of Oviedo

📅 September 2016 – June 2017

📍 Oviedo, Spain

CERTIFICATIONS

Deep Learning Specialization

Coursera

📅 January 2021

Skills: Neural Networks, Convolutional Neural Networks, Recurrent Neural Networks, Keras, Tensorflow.

Machine Learning, Data Science and Deep Learning with Python

Udemy

📅 August 2020

Skills: Python, Numpy, Pandas, Scikit-learn, Machine Learning, Recommender Systems, Neural Networks.

COURSES

First-Aid

Cruz Roja

📅 March 2014 – May 2014

VOLUNTEER EXPERIENCE

Volunteer

Erasmus Student Network Oviedo

📅 September 2019 – Present
