EDUCATION

M.Sc. in Artificial Intelligence
Technical University of Madrid

📅 September 2020 – Present   📍 Madrid, Spain

B.Sc. in Computer Science
Wroclaw University of Science & Technology

📅 2018 – 2019   📍 Wroclaw, Poland

- Erasmus exchange during the academic course 2018/2019.

B.Eng. in Computer Software Engineering
University of Oviedo

📅 2016 – 2020   📍 Oviedo, Spain

- Coursed 204 ECTS in English.
- Average grade: 8.33 (out of 10).

EXPERIENCE

Software Engineer Intern
DAIL Software

📅 April 2021 – Present

Research Intern
Biomedical Informatics Group, Technical University of Madrid

📅 September 2020 – September 2020

Undergraduate Research Intern
UNIMODE Research Group, University of Oviedo

📅 September 2019 – October 2019   📍 Oviedo, Spain

The following tasks were performed in collaboration with two professors of the Computation and Artificial Intelligence department:

- Analysis and optimization of algorithms.
- Development of algorithms.

The previous tasks were applied to a specific problem: aggregation of partially ordered sets. This work set a baseline for my Final Degree Project, obtaining later a grade of 10.

LIFE PHILOSOPHY

" *Always ready to learn new things. If I have a goal, I don´t stop until I get it.*"

ABOUT ME

Software engineer graduate with a passion for data, technology & artificial intelligence especially machine and deep learning and its real-life applications such as natural language processing.

I am a passionate lover of sports, having played: football, basketball, volleyball, tennis, panel, fronton, badminton, snowboard… But, without any doubt, Judo is, and will always be, my real passion. Judo has been present in my life since I was 6 years old, and nowadays I have the black belt, 2° DAN. Thanks to this incredible sport I have learnt essential values such as respect, self control, perseverance and overcoming.

STRENGTHS

Motivator & Leader   Curious

Hard-working   Problem solving

Ability to work in team

TECHNICAL SKILLS

Software Design & Development

Python   Computer Vision

Information Retrieval   NLP

Machine and Deep Learning

Web Scrapping   Agile Methods

Docker   Scikit-learn   Keras

Dask   Tensorflow   PyTorch

CI   Git   React   Numpy

Pandas

SCHOLARSHIPS

Erasmus+ Grant
University of Oviedo

📅 September 2018 – June 2019　　　📍 Oviedo, Spain

Excellent Academic Achievement Scholarship
University of Oviedo

📅 September 2016 – June 2017　　　📍 Oviedo, Spain

CERTIFICATIONS

Deep Learning Specialization
Coursera

📅 January 2021

Skills: Neural Networks, Convolutional Neural Networks, Recurrent Neural Networks, Keras, Tensorflow.

Machine Learning, Data Science and Deep Learning with Python
Udemy

📅 August 2020

Skills: Python, Numpy, Pandas, Scikit-learn, Machine Learning, Recommender Systems, Neural Networks.

COURSES

First-Aid
Cruz Roja

📅 March 2014 – May 2014

VOLUNTEER EXPERIENCE

Volunteer
Erasmus Student Network Oviedo
📅 September 2019 – Present
